

JUPITER PLUS

Technical Features:

Maximum Pressure: 8 BAR
Maximum Temperature: 170°C
Steam Output (Water): 65gr./min. – 3.9lt./hour
Water Tank Volume: 10lt. PET External
Electric Heating Power: 3000 Watt
Boiler volume: 2.5lt.
Heating up time: 8-9 minutes
Total power: 3000 Watt
Voltage: 230V~ 50/60Hz
Boiler Material: Stainless Steel AISI 304
Dimensions L x W x H mm: 560 x 400 x 1100
Net Weight: 19kg
Dry steam Regulation: Manual
Detergent Function: Yes
Detergent Tank Volume: 10lt. PET Canister
Vacuum: No
Vacuum Power: /
Vacuum Container Volume: /
Length Power cable: 5 meter
Standard Accessories: Steam Kit

The Jupiter Plus is build for continuous use with a detergent or chemical additive being injected into the steam at a low dosage volume of approximately 65 gr/m. This allows for around 3-4 hours of non stop work before refilling the water tank canister and 7-8 hours before refilling the detergent canister. The long hose gives you great reach and not having to activate chemical injection each time you need it makes work so much easier and less tiring. The injection of chemical is activated or deactivated directly on the grip and works only in conjunction with the steam activation switch. So work with steam only if you want or more effectively with added detergent. The low quantity of injected chemical makes the Jupiter Plus both ecological and economical. Also it removes grease and oil even more rapidly than with steam only!

Proud to deliver the steam you demand!
