With our unique boiler supplying 26.4 liters of dry saturated steam per hour at up to 10 bar of pressure, this industrial steam cleaner is “state of the art”. Additionally our unique 4 level electronic regulation gives you quality wet steam or detergent injection for even quicker and more efficient clearing, wherever dry steam just isn’t enough.

The GALAXY is particularly well suited to specific target deep clearing applications that require the highest levels of hygiene, reliability and flexibility of application!

A mobile cleaning and sanitizing solution capable of delivering wet or dry vapour steam on demand in both static and continuous applications.

Proud to deliver the steam you demand!
